

Invest to do well... and good

THE ORAH FUND

FUND DESCRIPTION

The ORAH Fund is a fund of funds aiming to produce risk-adjusted returns in excess of a composite benchmark comprising 50% of the MSCI World and 50% of the ASX 300 Index.

To achieve the Fund's objectives, the investment manager seeks to identify a set of specialist Underlying Funds that possess varied investment styles and strategies. This diversification is expected to result in reduced volatility and more stable returns over time. The Fund's investments are geographically diversified with the Underlying Funds investing in assets held both domestically and abroad.

The ORAH Fund was established in order to benefit charities supporting Jewish related causes, and all management and performance fees charged by the ORAH Fund are donated to charity. Importantly, the donations do not dilute the investment returns to unitholders. This is due to the philanthropy of the managers of the Underlying Funds who do not charge management or performance fees for their services.

PERFORMANCE
SUMMARY

The Fund generated a return of -1.84% (Class A) for the month compared to the benchmark which returned -1.64% over the same period.

Russia began its full-scale invasion of Ukraine on 24 February 2022 resulting in immediate global condemnation and followed shortly thereafter by sanctions on institutions and individuals, the removal of its banks from SWIFT, and the freezing of Russian Central Bank assets. Before month end, the far-reaching impacts of the war began to be felt within commodity markets with significant gains in WTI crude (+8.6%), coal (+37%), and wheat (+18%) – overall the Bloomberg Commodity index was up 7%. International equities, and in particular growth stocks, fell as the war and commodity prices fuelled consumer real wage fears and caused losses on the re-opening trade. The worst performing region was down -4.3% (MSCI Europe ex-UK in local currency). The Australian share market on the other hand was the standout performer globally due to its overweight in resources companies and gained +2.1% (ASX 300).

PERFORMANCE
HIGHLIGHT

All of the Fund's Australian equity funds contributed positively over the month. Specifically, we would like to highlight the Yarra Australian Equities Pooled Fund, which offers investors exposure to a differentiated, high conviction portfolio of ASX listed companies that Yarra believes have strong capital-growth potential over the medium to long-term. Yarra employs an actively managed and insights-driven approach that maintains a deep focus on external validation and includes participating in more than 1,600 meetings with company management, boards, and industry experts every year.
