THE ORAH FUND

FUND DESCRIPTION

The ORAH Fund is a fund of funds aiming to produce risk-adjusted returns in excess of a composite benchmark comprising 50% of the MSCI World and 50% of the ASX 300 Index.

To achieve the Fund's objectives, the investment manager seeks to identify a set of specialist Underlying Funds that possess varied investment styles and strategies. This diversification is expected to result in reduced volatility and more stable returns over time. The Fund's investments are geographically diversified with the Underlying Funds investing in assets held both domestically and abroad.

The ORAH Fund was established in order to benefit charities supporting Jewish related causes, and all management and performance fees charged by the ORAH Fund are donated to charity. Importantly, the donations do not dilute the investment returns to unitholders. This is due to the philanthropy of the managers of the Underlying Funds who do not charge management or performance fees for their services.

PERFORMANCE
SUMMARY

The Fund returned -3.3% versus the benchmark's return of -4.4% over December. The month saw improving inflation data and a smaller rate hike by the US Federal Reserve; however, the Fed also indicated that rates are now expected to peak above 5% and remain elevated through 2023 as a result of unemployment sitting at a historic low (3.7%) putting upward pressure on wages. Equities' performance was also driven by the continued abandonment of China's zero COVID policy, the pace of which surprised markets, leading to a focus on the impact to domestic and global economies.

PERFORMANCE
HIGHLIGHT

With value stocks having significantly outperformed growth stocks over 2022 by 24% (MSCI World Value Index vs. MSCI World Growth Index in AUD) we would like to highlight the Pengana Global Small Companies Fund, which uses a value-oriented approach to identify and invest in quality businesses that create significant value but are mispriced, overlooked, or out of favour. With access to a vast investment universe of over 50,000 listed global small to mid-cap companies across the globe, the fund aims to be well-diversified across geographies and industries.
