

Invest to do well... and good

THE ORAH FUND

FUND DESCRIPTION

The ORAH Fund is a fund of funds aiming to produce risk-adjusted returns in excess of a composite benchmark comprising 50% of the MSCI World and 50% of the ASX 300 Index.

To achieve the Fund's objectives, the investment manager seeks to identify a set of specialist Underlying Funds that possess varied investment styles and strategies. This diversification is expected to result in reduced volatility and more stable returns over time. The Fund's investments are geographically diversified with the Underlying Funds investing in assets held both domestically and abroad.

The ORAH Fund was established in order to benefit charities supporting Jewish related causes, and all management and performance fees charged by the ORAH Fund are donated to charity. Importantly, the donations do not dilute the investment returns to unitholders. This is due to the philanthropy of the managers of the Underlying Funds who do not charge management or performance fees for their services.

PERFORMANCE
SUMMARY

The ORAH Fund rose +2.0% over January, with positive global and Australian equity performance driven by the release of strong US growth data, fuelling hopes for a soft landing rather than recession. While the US Federal Reserve noted that a Q1 interest rate cut would be unlikely, the market was optimistic that inflation and interest rates are under control. Overall global equities rose +4.5% (MSCI World) and Australian equities rose +1.1% (ASX 300).

FUND
HIGHLIGHT

We would like to highlight the **Level 18 Fund**, a long/short equity fund with a bias towards smaller capitalised listed Australian companies. The Fund typically invests in a portfolio of 30-50 companies. It has a focus on avoiding major capital drawdowns along with its broad investment mandate, having no limit on the level of cash it can hold or level of market exposure required.
