

Invest to do well... and good

THE ORAH FUND

FUND DESCRIPTION

The ORAH Fund is a fund of funds aiming to produce risk-adjusted returns in excess of a composite benchmark comprising 50% of the MSCI World and 50% of the ASX 300 Index.

To achieve the Fund's objectives, the investment manager seeks to identify a set of specialist Underlying Funds that possess varied investment styles and strategies. This diversification is expected to result in reduced volatility and more stable returns over time. The Fund's investments are geographically diversified with the Underlying Funds investing in assets held both domestically and abroad.

The ORAH Fund was established in order to benefit charities supporting Jewish related causes, and all management and performance fees charged by the ORAH Fund are donated to charity. Importantly, the donations do not dilute the investment returns to unitholders. This is due to the philanthropy of the managers of the Underlying Funds who do not charge management or performance fees for their services.

PERFORMANCE
SUMMARY

The ORAH Fund gained +3.4% in February, driven by US equities which posted strong earnings reports (indicating a soft landing) amid weaker inflation data, although all major regions and sectors rose strongly. In addition, both the US and the eurozone composite Purchasing Managers' Index (PMI), which measures business confidence, rose over the month. Overall, global equities rose +5.8% (MSCI World) and Australian equities rose +1.0% (ASX 300), with the former led by mega-cap tech stocks and the latter being dragged down by a higher relative allocation to resources and energy.

FUND
HIGHLIGHT
