

Invest to do well... and good

The ORAH Fund is a fund of funds aiming to produce strong risk adjusted returns, and which adds value as a component of an investor's diversified equity portfolio.

To achieve the Fund's objectives, the investment manager seeks to identify a set of specialist Underlying Funds that possess varied investment styles and strategies. The Fund's investments are geographically diversified with the Underlying Funds investing in assets held both domestically and abroad. This diversification is expected to result in reduced volatility and more stable returns over time relative to an Indicative Benchmark comprising 50% of the MSCI World and 50% of the ASX 300 Index.

The ORAH Fund was established in order to support Jewish related charities, with all management and performance fees charged by the ORAH Fund being donated to charity. Importantly, the donations do not dilute the investment returns to unitholders. This is due to the philanthropy of the managers of the Underlying Funds who do not charge management or performance fees for their services.
